## Pinwheel with Stripes

This is the classic pinwheel pattern using 8.5" fabric squares and squares made from 8.5" x 2.5" strips. You should have at least 18 - 8.5" squares and 72 - 8.5" strips.

Sew four strips together to make an 8.5" square. Continue until 18 squares are sewn. Follow illustrated instructions. You will create 9 blocks of 15.5" square. Sew three blocks to a row, for a total of three rows across and three rows down.

Sew border to perimeter. Piece backing to make a 52 to 54" square. Sandwich quilt and sew. Finish with binding.
